

Scanner Driver Installation Instructions

Scanners Supported - Digital Check TS215, TS230-65 and TS230-100 Operating System - Microsoft Windows XP

The following instructions will guide you through the installation process for the updated driver for your Digital Check scanner, to be used with the Windows XP operating system.

Prior to installing the driver, you should close all programs, as you will be required to restart/reboot your PC after driver installation.

 As shown below, go to <u>www.mtbankcheckscan.com</u> to obtain the driver for download. You will need to enter generic Username **mtbank** and Password **rcd123** for access to this site.

5) Once driver has completed installing, make sure the **Yes** option is selected and click **Finish** to reboot the PC.

assport Web Edition - InstallShield Wizard				
assport web Edition - Ins	InstallShield Wizard Complete The InstallShield Wizard has successfully installed Passport Web Edition. Before you can use the program, you must restart your computer. • Yes, I want to restart my computer now. • No, I will restart my computer later. Remove any disks from their drives, and then click Finish to complete setup.			
	< Back Finish Cancel			

6) Once the PC has restarted, plug the scanner USB cable into the PC and then log into Remote Check Deposit.

Once logged in, initiate a new deposit to ensure the driver file has properly installed:

- ✓ Create a new deposit
- Click Start Capture and wait until the scanner initialized (you will hear the motor turn and the screen will display "Loading...")
- ✓ Insert checks into the hopper after "Loading..." disappears from the screen
- ✓ Items will scan

Smart Tip

To avoid scanner jams, <u>remember to wait for the "Loading..." message</u> to disappear from the screen before inserting the checks into the check <u>hopper</u>. While the "Loading..." screen is being displayed, the system is becoming ready to accept the checks.

7) Installation of the updated Remote Check Deposit driver file is complete!
